Relevant Experience

Developer | **Kreative-Media** | 2025 - Present

- Create and maintain core aspects and functions within the general website.
- Fix any bugs, or errors that may have mistakenly been made by the designers.
- Collaborate, exchange, and implement new ideas with the lead developers.
- Aid designers in creating an ideal, functional, and minimalistic website user-interface.

Frontend Engineer | **Big Human** | Sept - Dec 2024

- Build the entire web UI (Functionality & Design) from complete scratch alongside two other student engineers.
- Collaborated, shared and implemented ideas across the board.

Software Engineer | **Nike** | Jun - Sept 2024

- Collaborated with the main Designers, Product Managers, and other Engineers to achieve a fully funcional and aesthetically pleasing web UI.
- Delivered Technical Solutions in conjunction to stakeholder business standards.

Frontend Engineer | **netBlazr** | Mar 2022 - Jan 2023

- Created and tested multiple JS applications.
- Worked alongside Backend Engineers to resolve minor technical issues.

Software Engineer | **Vayner Media** | Aug 2021 - Feb 2022

- Collaborated with other student engineers to complete the entire UI.
- Contributed to technical solutions across the board.

Selected Projects

Somber Theme

Somber is a custom VS Code theme crafted entirely within the editor by yours truly! This theme is designed to enhance your coding experience with a sleek and modern interface, offering a perfect balance of readability and aesthetics.

Portfolio Website

My first iteration of a personal project designing a portfolio themed website centered around my favorite projects.
